

# Wash Cloth PREPAC® Zero Conventional BALDWIN®

## K-Supply

K-Supply Wash Cloth PREPAC® Zero is an all-in-one cleaning with Zero water spray & Zero maintenance on spray pipes and water system for the blanket cleaners. Because of its innovative solvent formula the Wash Cloth PREPAC® Zero saves up to 50 maintenance hours per year.

Spray-free means Zero occurrence of dripping: enhanced print quality, increased uptime, no damage of the plate, no corrosion (since there is no water spray and no evaporation of solvent in the cloth, there is Zero risk of corrosion on the press).

This product, tested at the Komori Graphic Centre-Europe, is highly effective and suitable for all conventional printing presses.

This Wash Cloth has an enhanced cleaning result due to water substitute. It shows improved removal of paper dust and paper line ridge and a prolonged lifetime on the press (more consistent cleaning result over weeks).

### Benefits

- Zero water drips on the plate.
  - Less paper waste.
  - No toning or destruction of the plate.
- Zero corrosion on the cleaning unit.
  - Especially on the impression cylinder.
- Zero cleaning of the spray pipes (reduction of production costs)
  - Less maintenance.
  - Time saving.
- Longer lifetime on press.
  - Very important especially on the impression cylinder cleaning, where sometimes the roll is installed for many weeks.

### Specifications

Product name	K-Supply Wash Cloth PREPAC® Zero by Baldwin Technology
Application	Wash cloths to clean presses with optimised printing results. Suitable for conventional presses.
Size	Customised
Packaging	Vacuum and heat-sealed packaging

 **Directions for Use:**  
For details, please refer to the safety data sheet.
